Dear Jim,

Let us talk about the Hunt part of your letter of the 29th. There is a companion part I mentioned to you that you have forgotten. You were to think and let me know if xxx the best approach would be to rite the letter I had in mind.

My first knowledge of Bringuier's ties with Hargis is in Oswald in New Orleans. I carried this much further in COUP. It is not only Hargis and not only Bringuier. I'll tell you. I'd be inclined to assume the birds of a feather bit. I didn t know Diaz Lanz was with Hargis or I forgot, but with his politics, where else?

I have no recollections of Raoul Condon. Sounds interesting.,,esp. if in Miami jail on a anrcotics charge. Be interested in what develops.

Kimsey/lady/ Rothblatt. You have my memo on this and you have Jerry's annotation when I asked him to carry it further, which, naturally, he didn't. The lawyer was Rothblatt, of whom I'd not heard when Mrs. Leonard told me. These also are all radical-right types.

If I knew anyone who would pay for it, I'd do a magazine piece on the fake assassinations to build Nixon-Agnew sympathy. The National Enquirer has started on Gaudet. I've helped them some but until the piece comes out, I'll keep fingers and toes crossed. Heard twice today and will hear again tonight or in a.m. I've given their reporters people to see in N.O. who can help, including Gaudet's lawyer, with whom he is as I write this. Just heard from his editor. In fact, the rest of his day is booked with those to whom I've referred him. They all made appointments. I fear they'll go for the black radical bit, which the Justice Department just managed to arrange to coincide with this need for sympathy.

I'll read the Meserve speech before you get here. Until I'm sure I'll also keep a list of the T-P clips.

Thanks,
